

River Valley Golf News

This 6,200 yard 18 hole course is carved through the bluffs in beautiful Red Wing, Minnesota. It features elevated tees overlooking tree-lined, rolling fairways calling for well positioned tee shots in order to approach undulating greens. The Red Wing Golf Course is a unique target golf course which rewards accuracy and positioning over power and strength. The course provides an enjoyable and challenging golf experience for all levels of play. The majestic oak trees, rich green pines and rugged sandstone bluffs make for a truly scenic golfing adventure.

Offering 27 holes on three distinct nines, Gopher Hills Golf Course is located just 30 minutes South of the Twin Cities – between Hastings and Red Wing in Cannon Falls, MN. Designed by Dr. Gordon Emerson and first opened in 1995, the original nine (now holes 10-18) has the mark of a classic, Early American layout, featuring tree-lined fairways, sculpted bunkers, numerous elevation changes, and plenty of risk/reward opportunities. An 18-hole expansion in 1999 by Garret Gill added a strong European flavor, with a front nine and executive nine; each using wind, native grass, and undulating greens as defense against par.

Three miles north of Prescott, Wisconsin, overlooking the St. Croix River Valley, lies 27 holes of which 9 are a panoramic executive course offering spectacular views and experiences. Clifton Highlands Golf Club lies minutes east of St. Paul, Minnesota. It has been a favorite of golfers for over thirty-five years. The Highlands offers a premium facility, available to you, at a very fair price. Challenging to both low and high handicappers, it's a course that can be played day in and day out without tiring of its beauty. The Highlands has enjoyed a 4.5 Star rating from Golf Digest Magazine and has received a number of accolades from local, regional and national writers. Come see why it's said to be "One of Wisconsin's Best".
